

**Amendments to the Specification**

Please amend numbered paragraph [67] as follows:

[67] Accordingly, computer system 1000 includes or is in communication with a computer-readable medium on which is stored a set of instructions (i.e., software) embodying any one, or all, of the methodologies described above. For example, software can reside, completely or at least partially, within main memory and/or within processors 1003. For the purposes of this specification, the term "computer-readable medium" shall be taken to include any mechanism that provides (i.e., stores and/or transmits) information in a form readable by a machine (e.g., a computer). For example, a computer-readable medium includes read only memory (ROM); random access memory (RAM); magnetic disk storage media; optical storage media; flash memory devices; ~~electrical, optical, acoustical or other form of propagated signals (e.g., carrier waves, infrared signals, digital signals, etc.); etc.~~.
